Source facts: f0786, f0787, f0788, f0789, f0790, f0791, f0792, f0793, f0794, f0795, f0796.

Scope and notation

Complete declared actor/use-case inventory in this source snapshot, including isolated declarations. An association means SDL pursues; no System boundary or UML include/extend is inferred.

Functionality realization

Features and Functionality are not use cases. Only modeled supports and contributes-to relations are listed.

Source	Relation	Target	Fact
ApplicationPreferences	contributes-to	ConfigurableScrolling	f0047
ApplicationPreferences	contributes-to	ConfigurePreferences	f0048
ApplicationPreferences	contributes-to	DocumentNavigation	f0049
