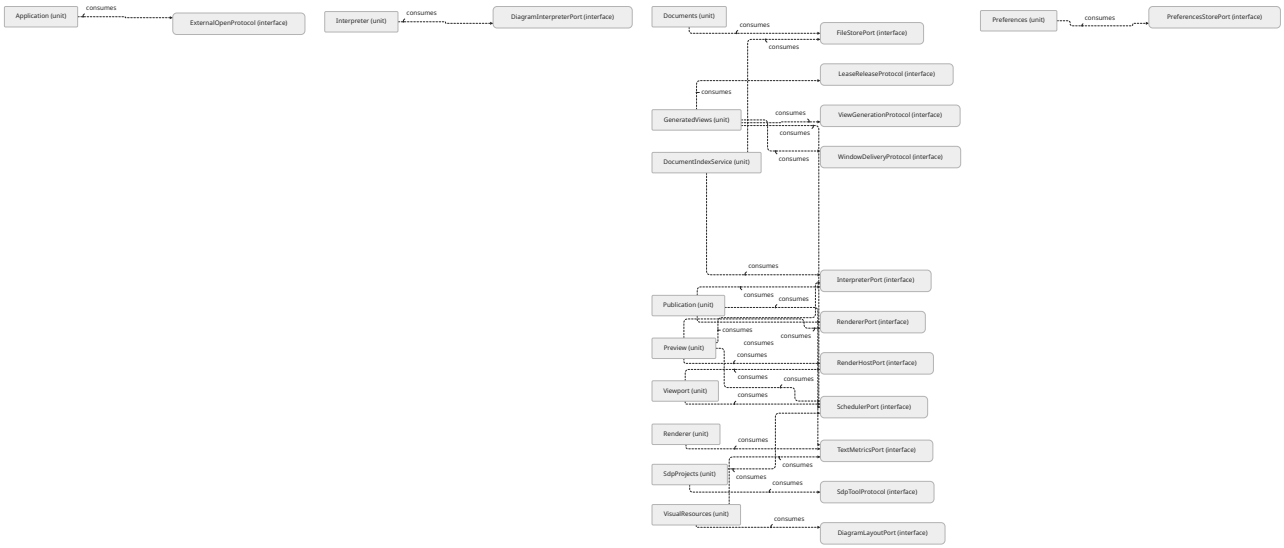
consumes records use; no provider, Channel or executable message flow is inferred.

All declared interfaces and explicit consumers



Source facts: f0018, f0179, f0180, f0230, f0419, f0420, f0421, f0422, f0483, f0651, f0683, f0684, f0685, f0686, f0743, f0744, f0745, f0843, f0894, f0895, f0963, f0964, f0981, f0982.

Declarations: Application, DiagramInterpreterPort, DiagramLayoutPort, DocumentIndexService, Documents, ExternalOpenProtocol, FileStorePort, GeneratedViews, InterpreterPort, Interpreter, LeaseReleaseProtocol, PreferencesStorePort, Preferences, Preview, Publication, RenderHostPort, RendererPort, Renderer, SchedulerPort, SdpProjects, SdpToolProtocol, TextMetricsPort, ViewGenerationProtocol, Viewport, VisualResources, WindowDeliveryProtocol.

Scope and notation

Every declared Interface is included, even without a consumer. Rectangles are explicit Unit/Container consumers; rounded nodes are interfaces. Dashed consumes arrows

point from consumer to interface and mean designed use, not an observed call or mandatory availability. No provider, Channel, transport, call order or mode necessity is inferred. Units without consumes facts are outside this projection; VP02 shows the complete logical structure.

Interface register

Interface	Explicit consumers	Source facts
DiagramInterpreterPort	Interpreter	f0483
DiagramLayoutPort	VisualResources	f0981
ExternalOpenProtocol	Application	f0018
FileStorePort	DocumentIndexService, Documents	f0179, f0230

PreferencesStorePort	Preferences	f0651
RenderHostPort	Preview, Viewport	f0684, f0963
RendererPort	Preview, Publication	f0685, f0744
SchedulerPort	GeneratedViews, Preview, SdpProjects, Viewport	f0420, f0686, f0894, f0964
SdpToolProtocol	SdpProjects	f0895
TextMetricsPort	Publication, Renderer, VisualResources	f0745, f0843, f0982

ViewGenerationProtocol	GeneratedViews	f0421
WindowDeliveryProtocol	GeneratedViews	f0422

No declared consumer means no consumes fact is present; it does not prove an unused or unnecessary interface. Provider information is not expressed by consumes.

Interface use

No Channel or provider is inferred.
