VP05 — Dependencies by mode

Revision: `e2a2f39e5c78476bb1bba08e406114367eb59953f02a63e952e435c880d24007`.

requires in mode; modes have no implicit inheritance.

Scope and notation

Requires states that an Interface is necessary for a Capability in the selected Mode. It does not establish sufficiency, a provider, consumption, transport or runtime execution. Modes have no implicit inheritance. Dashed requires arrows point from Capability to Interface.

Selected mode: **NormalDesktop**. Mode source: NormalDesktop.

No required interfaces are declared for this mode. This does not prove independence or sufficiency.

No Capabilities are declared. No dependency is inferred from Features or consumers.
