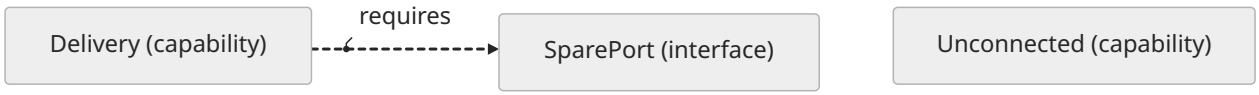
VP05 — Dependencies by mode

Revision: `f08f981f22d579abe806b5da72052d23ea35c313d0d93ef1cb44b17782bb273c`.

requires in mode; modes have no implicit inheritance.

Required interfaces — mode Online



Source facts: f0009.

Declarations: Delivery, SparePort, Unconnected.

Scope and notation

Requires states that an Interface is necessary for a Capability in the selected Mode. It does not establish sufficiency, a provider, consumption, transport or runtime execution. Modes have no implicit inheritance. Dashed requires arrows point from Capability to Interface.

Selected mode: **Online**. Mode source: Online.

Capability requirements

Capability	Required interface in selected mode	Source facts
Delivery	SparePort	f0009
Unconnected	No declared requirement	—

Capabilities without a declared requirement remain visible; no claim of completeness is inferred. Interfaces not required in this mode are outside this projection.
